Rolls-Royce Motor Cars Sunningdale

# WELCOME TO ROLLS-ROYCE MOTOR-CARS SUNNINGDALE

As Brand Manager of Rolls-Royce Motor Cars Sunningdale, I would like to extend a very warm welcome to you. I hope you will take the time to peruse through this brochure. Whether you are in the market to purchase Rolls-Royce or maintain your current car, we offer the highest levels of service and expertise at all times.

As part of the Sytner Group, we offer all of the services that one would expect from one of the world's largest retailers of New and Provenance Approved Rolls-Royce Motor Cars.

Our beautiful showroom showcases the Rolls-Royce family at its finest including the recently introduced "Luxury Everywhere" Cullinan model. Our private lounge provides a relaxing environment for clients to commission their own bespoke Rolls-Royce with a selection of paint finishes, leather interior colours and veneer pieces to be sampled.

Our dealership is situated on the A30 in Sunningdale and conveniently close to the M25, M3, M4 and M40 motorways as well as London and the South East/Home Counties.

We have some very exciting plans for the showroom and aftersales facilities we offer that we will share with you when we are in a position to do so, that will ensure the experience we deliver will be even higher but for the moment we are mindful that the Rolls-Royce family is a very special one and that Rolls-Royce Motor Cars Sunningdale is dedicated to providing an exceptional passionate customer experience in all areas.

You can be assured of the highest standard of service and professionalism with the team holding a wealth of knowledge of the legendary Rolls-Royce marque.

We trust you will find this brochure to be interesting and look forward to welcoming you to our showroom.

# ROLLS-ROYCE PHANTOM

THE ULTIMATE IN AUTOMOTIVE LUXURY,  
REINVENTED FOR AN EIGHTH GENERATION.

At the rarefied level of Rolls-Royce's new flagship, luxury isn't measured by the softness of the leather upholstery or the perfectly-matched grain of the veneer. Such things are taken as read.

Instead, luxury is redefined as an environment that's created exclusively for the owner. The eighth and latest generation of Phantom achieves this; it is a statement of perfectionist car making that's as bold as it is seductive.

Due to the way the new Phantom is constructed, it has fewer panel joins, giving the impression on first view that it is hewn from solid aluminium. The unique signature Pantheon grille is still the focus of the head-on view, but the top surfaces are curved to better integrate it with the bonnet. This cleaner, more modern treatment of a design classic is complemented by the new headlamp design. The front-to-rear design line begins at the grille and flows outward then along the flanks, conveying grace and fluidity. It's a confident evolution of key Rolls-Royce design signatures.

## ROLLS-ROYCE PHANTOM

Enter the interior and you'll encounter 'the Embrace', the Rolls-Royce term for the way the doors silently close as you settle into the seats and are cocooned in a haven of calm and elegance. Technology is hidden until it's needed, surfaces are beautifully simple yet seemingly perfect in every detail. Even the (heated) armrests are inspired by the classic form of a J-Class yacht. The dashboard and fascia has been reimagined as 'the Gallery' – an uninterrupted sweep of toughened glass that runs the full width of the dash, enclosing dials, 12.3-inch TFT colour displays and analogue clock, while providing a viewing space for images or works of art chosen by the vehicle owner.

## SHARPS PIXLEY

THE TRANSPARENT WAY TO  
INVEST IN PRECIOUS METALS.

Gold has been the strongest currency for 6000 years and is therefore considered a long-term investment. As a subsidiary of Degussa, Europe's leading independent precious metals dealer, we provide our clients with institutional scale, service and support, delivered in a uniquely personal way. We can help you diversify your portfolio with Sharps Pixley branded investment grade gold bars, produced by London Bullion Market Association (LBMA) accredited 'good delivery' refineries. We also offer bullion coins from world-renowned mints, some of which are exempt from Capital Gains Tax for UK investors. As an additional service, we offer state-of-the-art secure storage facilities, including safe deposit boxes to protect your assets 24/7.

# ROLLS-ROYCE PHANTOM EXTENDED WHEELBASE

SIMPLY INCOMPARABLE: A NEW BENCHMARK IN SPACE AND LUXURY.

The new Phantom is the eighth generation of Rolls-Royce flagships and, like each of its majestic predecessors, it sets new standards in refinement, luxury and comfort.

That's especially true of the extended wheelbase version, which embraces its occupants in a meticulously-crafted interior that's designed to make every journey a memorable experience.

From the curved edges of the Pantheon grille to the elegant, sweeping lines from nose to tail, the form of the new Phantom conveys poised assurance. The rear window is more steeply raked than that of its predecessor but the scalloped roofline ensures that even the tallest of rear-seat occupants can stretch out in comfort. A single polished stainless-steel strip distinguishes the Extended Wheelbase Phantom from its stablemate.

Entry and egress are all part of what Rolls-Royce describes as 'the embrace'; a chauffeur or attendant simply needs to touch a sensor on the door handle for it to close smoothly and silently. Alternatively, rear seat occupants can control this function from their seats.

## ROLLS-ROYCE PHANTOM EXTENDED WHEELBASE

Once inside, passengers can savour an interior that's contemporary, uncluttered and full of tactile delights. Technology remains hidden until required, spaces and surfaces are clean. Occupants are encircled in beautiful and authentic materials, such as high-gloss veneers and flawless leather. The sweep of wood panelling across the back of the front seats draws inspiration from the iconic Eames chair, while above the passengers' heads is the largest Starlight headlining ever created for a Rolls-Royce.

# ROLLS-ROYCE GHOST

ENTREPRENEURS' ICON, MORE POLISHED AND REFINED THAN EVER.

The Ghost shares many similarities with the Phantom, offering the same floating steering wheel and rear-hinged back doors. The latest models also boast an eight-speed automatic gearbox that uses sat-nav technology to select the appropriate gear for the road ahead.

The supple, air-sprung suspension ensures that travelling in the Ghost feels almost like gliding rather than driving, while thorough soundproofing throughout means that engine and other outside noise is reduced to a barely-audible hum. But make no mistake, this imposing car can also deliver powerful acceleration when required thanks to the twin-turbo, direct-injection V12 engine.

Finished in leather, chrome, brushed aluminium and wood veneers, the stunning interior is incredibly well designed. The front seats offer extendable thigh supports for an extra comfortable drive, while the two individual rear seats are tilted slightly towards each other to make chatting a little easier. There's also an extra-large sun roof that allows you to make the most of the weather.

There's no scrimping on space with the Ghost, and both the driver and passengers have what feels like acres of room to stretch out, and this luxury car also offers a generous 480 litres of boot space.

## ROLLS-ROYCE GHOST

Many business leaders will appreciate Ghost Series II as an oasis of calm rather than as a driving machine, however. On-board Wi-Fi is now offered as standard, helping them to conduct their business on the move. It is accessed through a one-touch call button or a new Spirit of Ecstasy Rotary Controller to facilitate email, telephony, file sharing and video-conferencing. Yet the technology doesn't intrude – the contemporary design of the Ghost Series II interior serves up a wonderful blend of craft, luxury and connectivity. There can be few more inspiring environments in which to clinch that all-important deal.

# THE ULTIMATE DESIGN & BUILD

At Octagon, we have over 40 years experience and an unrivalled reputation for building spectacular, one-of-a-kind homes to the highest standard of luxury. # ROLLS-ROYCE GHOST BLACK BADGE

## THE QUINTESSENTIAL ENTREPRENEUR EXPRESS REVEALS ITS DARK SIDE.

Take in the squared-off bonnet and imposing grille with the ubiquitous Spirit of Ecstasy perched just above it, and it's immediately clear that the Rolls-Royce Ghost Black Badge is a car designed to be noticed.

Ghost Black Badge is created for high achievers in a hurry, and they'll find the 6.6 litre V12 engine delivers effortless, exhilarating power. Subtle engineering modifications raise power by 40hp to 603hp, while torque is also given a significant 60Nm increase to 840Nm. Brakes are upgraded for more positive pedal feel, while Intuitive Throttle Response and upgrades to the 8-speed transmission achieve a transformation in character, holding gears for longer and downshifting more eagerly.

The Ghost Black Badge still provides a magic carpet ride, as a Rolls-Royce should, but a harder-edged side to its character is just a flexed throttle foot away. Owners of powerful sports cars may be startled into a double-take; this is a Ghost with a touch more driver focus, and proof that you don't need glitter, glitz or sparkle to take centre stage.

## ROLLS-ROYCE GHOST BLACK BADGE

The interior feels as opulent as you would expect from Rolls-Royce, with chrome, brushed aluminium, leather and wood veneers upping the ante in terms of finishes. And, at 5.4 metres long, the Ghost Black Badge offers all on board plenty of space to stretch out and get truly comfortable.

By choosing the Black Badge version of the Ghost, you get a hefty list of extras that lend this already luxe car an added layer of distinction. Ventilated and massaging seats, smoked chrome trim, natural grain leather upholstery, a 360-degree camera system, a starlight headlining and added safety technology are all part of the package..

# ROLLS-ROYCE WRAITH

## THE MOST POWERFUL AND DYNAMIC ROLLS-ROYCE IN HISTORY.

At its heart lie hallmark Rolls-Royce attributes of luxury, refinement and hand-craftsmanship, but the new model from the world's pinnacle super-luxury marque also presents a unique character defined by power, style and drama. With just a hint of the noir.

The most powerful Rolls-Royce in history, Wraith promises the sense of adventure and speed that drove our founding forefather. But of course, Wraith's starting point is luxury, refinement and quality, traits that remain as important to Rolls-Royce customers today as they were more than a century ago.

In profile, Wraith's unique character is given by its sweeping fastback design. Bold lines, tension in the panels and a raked rear screen evoke the image of a world class athlete poised in the starting blocks. Further expression of dynamic intent can be seen in Wraith's deeply recessed grille, wide rear track and dramatic two-tone presentation.

This astonishing car also comes completed with Rolls-Royce's lauded eight-speed ZF auto, which monitors the sat-nav's reading of the road ahead and selects an appropriate gear to cater for conditions – taking a good deal of effort out of driving.

## ROLLS-ROYCE WRAITH

The interior's classic styling conceals a wealth of distinctly 21st century technology. The 10.3in high-definition multimedia display emerges from behind a sliding wood panel, there's voice-activated satellite navigation on board, and owners can download the Rolls-Royce Connect iPhone app to make adjusting and adapting the car's settings and controls even easier. The double front bulkhead ensures noise barely intrudes on the peaceful cabin, and the highest-quality finishes throughout make the Wraith an indulgent-feeling car that you'll be happy to linger in.

PINNACLE SKI

# Be open to adventure and flawless travel

GLOBAL JET

GLOBALJETCONCEPT.COM

---

Founded in 2000, Global Jet continuously innovates and redefines its services to exceed all expectations to remain an undisputed leader in business aviation. The company has grown throughout the past three economic recessions and the three founders are still 100% involved and dedicated to the business.

Global Jet is primarily a service-oriented company, whether this means chartering you a flight or managing your jet. The higher your expectations are, the more they will go out of their way to meet them. This is where they separate themselves from the competition. No matter who is the client from a big company or a small corporation, they invest a lot of time and energy in tailor made solutions to satisfy every need.

With a very diversified portfolio, Global Jet manages over 75 business jets internationally, owned by high-net-worth individuals and corporations. They are specialized in wide-body and long-range operations, with the highest level of safety and comfort in the industry. Global Jet is the largest operator of privately owned Airbus and Boeing business jets, with a fleet ranging from the prestigious VVIP Airbus A340-300ER, VVIP B787 throughout the product line of the following leading manufacturers: Airbus, Boeing, Bombardier, Dassault, Gulfstream, Cessna, Embraer and Beechcraft.

Their will to constantly improve led them to develop a wide range of services such as Aircraft Management, Aircraft Sales & Acquisitions, Charter Sales and Completion Turnkey.

Global Jet's headquarters are strategically located in Luxembourg and in Geneva, housing the main administrative, technical and operational departments of the company. Today, Global Jet has a global presence in 11 countries and employs over 650 staff members worldwide.

All crews are experienced and qualified over and beyond the requirements of their field and undergo regular in-house service training in order to provide the best service for the clients. Nothing is left to chance.

Furthermore, their operations center team of flight coordinators and dispatchers are available 24/7 and answers to your every need. Additionally, Global Jet provides technical supervision and operational support for their entire fleet thanks to their 24/7 dedicated engineering team.

Their joint expertise enables them to organize your flight in the shortest possible time, without ever compromising on your safety and comfort.

# ROLLS-ROYCE WRAITH BLACK BADGE

THE MOST DYNAMIC ROLLS-ROYCE EVER MADE  
POWERS INTO THE DARK.

Rolls-Royce stylists have given their creativity free rein for the Black Badge series, and the result is a Wraith that sends a frisson of excitement down the spine even when it's parked at the kerbside. The wheels command attention; as black as night itself, the rims are made from carbon-fibre composite bonded to aircraft-grade aluminium hubs. As well as looking effortlessly cool, they also reduce unsprung weight, to the benefit of handling.

Externally, brightwork becomes darkwork. This includes the iconic Spirit of Ecstasy and the Double R badge as well as front grille surround, boot lid finisher, lower air inlet finisher and exhaust pipes. A new shade of paint, Black Badge Black, complements the look to perfection though owners are free to specify any colour they wish.

The 6.6-litre twin turbocharged V12 effortlessly churns out 624bhp and 642lb ft and is capable of speeding the Wraith Black Badge from 0-62mph in just 4.5 seconds, with a maximum speed of 155mph. The GPS-guided gearbox – which automatically adjusts the gear based on what's ahead – ensures a smooth ride, whatever the road conditions. Despite the car's supersized proportions and nearly two and half ton weight, it's light on its feet – in fact, you'll feel more like you're gliding than driving.

And, as usual with Rolls-Royce cars, the sweeping roof line, imposing grille and sheer size of the Wraith Black Badge ensures you'll attract attention wherever you go.

## ROLLS-ROYCE WRAITH BLACK BADGE

The Black Badge Wraith gets an extra dash of panache when it comes to the interior too. The dashboard and door-tops use an aluminium-threaded carbon fibre composite, while the air vents are darkened using a technique called Physical Vapour Deposition (PVD), which prevents discoloration. There are ventilated front seats, a Rolls-Royce Bespoke audio system and lambswool floor mats too. Even the Spirit of Ecstasy gets a makeover and is adorned in a high gloss black finish rather than the usual silver.

# ROLLS-ROYCE DAWN

## AN ELEGANT, SENSUOUS NEW DROPHEAD OF IMPECCABLE PEDIGREE.

If the Phantom is Rolls-Royce at its most imposing, the Ghost a Rolls-Royce for the new global entrepreneur and the Wraith a grand tourer of imperious performance, the Dawn brings sensuality, beauty and the hedonism of open-air motoring to the stable. If a car can be sexy, this can - and is.

True to Rolls-Royce tradition, Dawn features a fabric roof. But it also had to deliver a hushed driving experience. So the roof is exceptionally well insulated, making it the quietest convertible car in the world. It can also be operated at up to 30mph, raising or lowering in 22 seconds in a 'silent ballet' of precisely timed movements.

Technology is ever-present but discreet; the Spirit of Ecstasy rotary controller controls media and navigation; a one-touch call button on the steering wheel allows access to voice control.

Though it offers the same wheelbase, twin-turbocharged 6.6-litre V12 engine and eight-speed automatic gearbox as the Wraith, the Dawn is very much its own entity, and can speed from 0 to 60mph in just 5.2 seconds.

Everything about the Dawn is geared around offering owners unrivalled smoothness, both in terms of performance and styling. The hardworking, air-spring suspension means you'll feel barely a bump in the road, no matter what speed you're travelling at, and stability is always excellent.

## ROLLS-ROYCE DAWN

The Dawn's interior offers Rolls-Royce's usual exceptional standard of finish, with luxe material used throughout. And for days when the weather's too good to waste, the roof opens and retracts in just 20 seconds, at vehicle speeds of up to 31mph – so you won't even have to stop in order to make the most of the sunshine!

This four-seat convertible doesn't short-change rear passengers when it comes to space, either, ensuring that everyone on-board can feel relaxed and comfortable, even on the longest journeys.

## ROLLS-ROYCE DAWN BLACK BADGE

### DROPHEAD DAWN CONVERTED TO THE DARKSIDE.

With edgier styling features, some subtle-but-significant engineering tweaks and a distinctive black colour scheme, Rolls-Royce's Black Badge range aims to appeal to a new generation of discerning buyers – those looking for cars that perfectly combine the ultimate in luxury with modern-feeling styling and top-class performance.

The Dawn Black Badge is an incredible-looking car. Immediately imposing, this soft-top four-seater is finished with black paintwork that's layered and highly polished to perfection to create a darker than dark shade.

The eight-speed automatic gearbox and a seven-layer folding cloth top are the same as you'll find in the standard Dawn model. But the Dawn Black Badge offers more spirited drive than its namesake, particularly at high speeds.

There's also a new exhaust system, new brakes, evolved steering and recalibrated throttle mapping, plus the V12 engine ups to ante from 593bhp to 563bhp with 620lb ft of torque ensuring a super-smooth, effortless-feeling drive. The hardworking, air-spring suspension means you'll feel barely a bump in the road, no matter what speed you're travelling at, and stability is always exceptional.

## ROLLS-ROYCE DAWN BLACK BADGE

Inside, the difference in fit-out is noticeable. Instead of the wood dash, you get a carbon fibre finish that's woven through with aluminium threads. Rolls-Royce says that the orange highlights in the cabin are designed to be "evocative of the sunset", and lend the cabin a unique ambiance whether you're driving with the top down or not.

# LIQUID GOLD

## HAS WHISKEY BECOME A BETTER INVESTMENT THAN GOLD, PROPERTY AND STOCKS? FIND OUT THE ANSWERS...

This headline is likely to ruffle a few feathers from avid investors in gold, property and stocks, but casks of whiskey are fast becoming the go-to investment for people looking to hedge against inflation and the uncertainties of the financial markets. Knight Frank has included whiskey in its wealth report for the first time in 2019; a key indicator that this asset class is favourable with HNWI & UHNWI who are securing their wealth by owning casks of whiskey.

This is not about being speculative and buying rare bottles of whiskey in the hope they go up in price. That style of investing requires skill and knowledge of the market while still being a gamble. This article is specifically about owning casks of whiskey.

### THIS IS HOW OUR INVESTMENT WORKS

You purchase casks of whiskey straight off the still. Because the whiskey is brand new, it hasn't aged and therefore is far most cost effective. Whiskey must be at least three years old to be bottled and sold, and most would agree at least five + years old to be desirable and palatable enough to drink. The cost of maturation over five years can hurt distilleries, as it is quite a capital-intensive model.

Some distilleries, therefore, opt to sell a small percentage of their whiskey straight off the stills. They do this to cover running costs while the rest of their production matures over five years or longer. This opens up a great opportunity for investors to buy off the stills and hold for those five years, then releasing at a profit.

### WHY IS WHISKEY BECOMING FAVOURABLE WITH INVESTORS?

Unlike most commodities, whiskey increases in quality and value as it matures. Its price increase is inevitable over time. It doesn't tend to suffer the highs and lows of financial markets and it's also a major exported product, where demand significantly outstrips supply.

The Irish variety is the fastest-growing, brown spirit in the world.

The International Wine & Spirit Record (IWSR), which is the global benchmark for alcohol data and intelligence, shows the growth of Irish whiskey will continue to outstrip that of Scotch and Bourbon for at least another ten years. What's more, it has been outperforming both for the last twenty years. The Irish Whiskey Association (IWA) echoes the same data and statistics and predicts the rise to continue, as Irish whiskey comes back to where it once was on a global stage. We also have a limited number of Scotch Casks which are being produced exclusively for Whiskey & Wealth Club clients by Dr. Nick Savage, Ex-Master Distiller for The Macallan. Join a number of HNWI clients who are choosing to secure their wealth with Whiskey & Wealth Club. Based in the centre of Richmond, Surrey, the Club offers private clients the opportunity to invest in casks of Irish, Scotch or Bourbon Whiskey. The casks mature and increase in value over time, whilst safely secured in Government-controlled bonded warehouses. Additionally, the casks are fully ring fenced with insurance for your peace of mind. Annual returns are being achieved above 8% and as high as 54.5% a year, depending on an investor's chosen exit strategy. Investment levels are from £23,000 -£3m. £31m.

To receive a prospectus and a deeper understanding of this opportunity, please call today on **0203 129 9739** and quote **'Sunnigdale Rolls Royce'**. Ask to speak to Wealth Director, Gary Schroeder, or our CEO Scott Sciberras, for this exclusive offer. We are always happy to meet face-to-face with investors to discuss the investment and answer any questions you have.

# ROLLS-ROYCE CULLINAN

## SUPER-LUXURY SUV THAT TAKES THE WORLD IN ITS STRIDE.

From very first view Cullinan is a powerful and assertive design, with the V-shape of the bonnet standing well proud of the front wings and leading towards the familiar Palladian Rolls-Royce grille topped by the Spirit of Ecstasy. It shares a close resemblance to the front of the new Phantom, with which it shares body architecture, but the treatment of the front bumper and air intakes gives a more rugged, warrior-like face. The large passenger compartment leads to a fastback split tailgate with a vestigial 'boot' or bustle, which Rolls-Royce calls a 'D-back' format.

For the rear compartment, owners can choose between lounge seating and individual. Lounge seating can accommodate three abreast and will be the choice of family owners, while the individual option includes two seats separated by a fixed rear centre console drinks cabinet with Rolls-Royce whisky glasses and decanter, champagne flutes and refrigerator. Whichever format is chosen, the rear passengers sit higher than those in front to enjoy the view from Cullinan's large side windows and panoramic glass roof.

Cullinan's aluminium 'architecture of luxury' body structure, elements of which are shared with the Phantom, provides immense torsional rigidity that results in exceptional refinement, ride comfort and off-road ability. Rolls-Royce's latest generation self-levelling air suspension has been engineered to cope with the demands of off-road driving while still delivering the inimitable Rolls-Royce 'magic carpet' ride.

## ROLLS-ROYCE CULLINAN

Inside, driver and passengers enter a compartment of flawless luxury, with a completely flat floor and Goodwood's hand-craftsmanship throughout. Upon touching the start button, Cullinan raises up by 40mm, giving a commanding view on the move without requiring occupants to climb up to enter the cabin. The driver's instrument panel is now fully digital, with beautifully designed virtual needles, and there's a new touch-sensitive central instrument screen to allow access to infotainment, vehicle set-up and map views.

Luxury vehicles and classic cars are always on the criminal's shopping list. Often stolen to order, they are almost instantly sold on, meaning your prized asset could quickly be on its way out of the country never to be seen again. Manufacturer supplied trackers can be easily identified, defeated and quickly removed by experienced criminals. Valkyrie has the capability to provide specialist covert tracking equipment that is easily installed in a single vehicle or multi-vehicle collection, reports in daily and can be monitored from any internet-enabled device. It is self-powered, quick and easy to install, adding immediate, state-of-the-art security protection to your prized possessions.

# ROLLS-ROYCE CULLINAN BLACK BADGE

## PRESENTING THE MOST CAPABLE ROLLS-ROYCE EVER.

The Rolls-Royce Cullinan has conquered the world's wildest reaches, and now the Black Badge Cullinan is taking on new urban frontiers. It is the darkest definition yet of Effortless, Everywhere.

The Cullinan Black Badge is defined by its exterior; the Spirit of Ecstasy mascot is presented in high gloss black chrome and, for the first time, this finish extends onto its mounting plate, creating the darkest Black Badge yet. The 'Double R' badge on the front, flanks and aft invert to become silver-on-black, while chrome surfaces such as the front grille surround, side frame finishers, boot handle, boot trim, lower air inlet finisher and exhaust pipes are darkened. Cullinan's imposing proportions and confident stance are dramatised by all-new 22-inch forged alloy wheels, reserved exclusively for Black Badge Cullinan.

Key to the visceral thrill of Black Badge Cullinan is the Architecture of Luxury, Rolls-Royce's all-aluminium architecture, which has been extensively reengineered for Black Badge while retaining the peerless quality of ride that has driven Rolls-Royce's success.

When the driver presses the 'Low' button situated on the gear selection stalk, they unlock Black Badge Cullinan's full suite of technologies. The 6.75-litre twin-turbocharged V12 asserts itself through an entirely new exhaust system, announcing its arrival with a deep growl. An extra 29PS and 50Nm of torque are generated over and above the Silver Badge model, for a total of 600PS and 900Nm.

## ROLLS-ROYCE CULLINAN BLACK BADGE

The interior borrows a Sir Henry Royce philosophy – "when it does not exist, design it" – with the introduction of a brand new Technical Carbon veneer. This naked-weave carbon-fibre finish has been developed to create highly accurate repeating geometrical shapes that produce a powerful three-dimensional effect. Each leaf of Technical Carbon is finished with six coats of lacquer before being left to cure for 72 hours then hand-polished to Rolls-Royce's hallmark mirror finish. This process takes 21 days.

**THAMES  
RETREAT**

# Luxury Park Home Living on the River Thames

## The Perfect Location

Thames Retreat provides a great opportunity to own your own slice of Thames-side living on a beautifully redeveloped park.

Situated in stunning surroundings adjacent to the River Thames, with transport links to London and close to Heathrow Airport and the M25, it is ideally placed for work and play, offering the perfect location with luxury high-end lodges available. Staines station is nearby and offers regular routes to London Waterloo in just half an hour on the fast train. Owners will also be able to benefit from fantastic Sky TV and WiFi packages to give your home a truly modern feel at a great price.

Those with boating aspirations will love the fact that Thames Retreat gives individual owners the facility to moor boats in front of their own home, giving you the chance to bag yourself the ideal home/mooring situation. Could there be anything better than a day spent out enjoying your own boat on the river, coming back to your beautiful home to enjoy a cosy night in?

If adventures on the water aren't your thing, there are still plenty of ways to take advantage of this excellent location.

The thrill seekers among you will be pleased to hear that Thorpe Park is within driving distance from Thames Retreat.

# ROLLS-ROYCE PROVENANCE

## PROVENANCE PRE - OWNED

Rolls-Royce motor cars are designed and crafted to live a long and rich life.

Their story begins the moment they are driven away by their first owners, from our home in Goodwood. Provenance is a collection of the finest previously-owned Rolls-Royce motor cars.

We ensure they have been meticulously cared for and still meet our uncompromising standards. Only then do we prepare them to meet their new owners - when the next chapter of their story begins and their journey continues

## METICULOUSLY CARED FOR AT THE HIGHEST LEVEL

Our legendary and unrivalled attention to detail is no different for a previously-owned Rolls-Royce, than it is for the motor cars leaving Goodwood today. It begins with the selection of the Provenance motor car itself. We only feature those that have been meticulously cared for and maintained at the highest level, with an exhaustive written record to prove it.

No one knows a Rolls-Royce motor car like the craftspeople and artisans who built it. So only specialist technicians, who we train to our unparalleled standards, are qualified to exhaustively inspect and approve all Provenance motor cars - from the paintwork and interior to the mechanics and technology. Any repairs or refurbishment needed are carried out to our exacting requirements, using Rolls-Royce Genuine Parts. And we thoroughly check the motor car's history and mileage, to ensure its integrity.

Finally, before we award the Provenance title, we carry out an extensive road test. So, as its new owner, you will experience a Rolls-Royce that drives as beautifully as it did the day it left Goodwood.

## THE OPPORTUNITY TO ADD TO ITS HERITAGE

Each Rolls-Royce is unique. And Provenance Pre-Owned gives you the opportunity to add to its individuality and legacy. As its new owner, you drive your Rolls-Royce away the moment you purchase it, rather than patiently waiting for it to be hand-built. However, you are still able to make your motor car individual to you by selecting from a breadth of Bespoke features, which can be crafted once you take ownership. Inside, you can personalise your headrests with any emblem or initials you choose, add the bewitching Starlight Headliner or fit a humidior into the glove box. While on the exterior, you can choose a brushed steel bonnet, fully polished alloy wheels, or even a 24-carat gold Spirit of Ecstasy.

You also receive a minimum of two years' servicing and warranty, and two years' roadside assistance. If you are ready to become a Rolls-Royce owner, we will be able to help you find your perfect motor car. Or you can search our Provenance Pre-Owned collection online. If you can't find what you're looking for, we can notify you the moment your preferred Rolls-Royce becomes available.

# ROLLS-ROYCE SERVICING, PARTS & REPAIR

## KEEPING YOUR ROLLS-ROYCE IN PERFECT CONDITION

Owning a Rolls-Royce, like driving one, is an effortless pleasure, made even simpler by the high standards of aftercare our dealerships offer. They will provide help and advice about any aspect of your car. It will also help you keep your investment in perfect condition so it continues to perform as well as it did the day it left Goodwood.

### TECHNICIANS

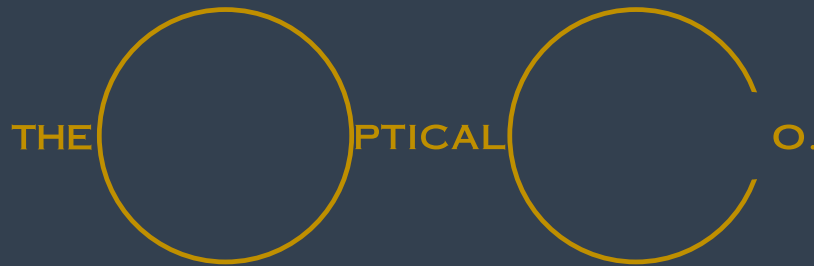

Every Rolls-Royce motor cars technician at our dealership has been trained by experienced teams from Goodwood. These technicians have access to the most innovative diagnostic service equipment available and have ongoing training to keep them abreast of the latest technology fitted to our cars.

### GENUINE PARTS

Our dealership only uses genuine Rolls-Royce motor cars parts and accessories. Designed and made to the same exacting standards and precise specifications as the originals, any replacements will ensure your car continues to perform just as it did the date it left the home of Rolls-Royce motorcars at Goodwood.
